## 2013 State Fiscal Year Kentucky Assistive Technology Loan Corporation

In 2013, the Kentucky Assistive Technology Loan Corporation (KATLC) received 116 applications and approved 60 for a total of \$452,511. After the economic downturn of 2008, KATLC saw its losses to default increase over the next few years. In response to these losses, the Board of Directors has tightened its guidelines when reviewing applications. As a result, the number of loans and the amount of money being loaned has decreased in the last couple of years.

The following table shows how 2013 compares to previous years:

State Fiscal Year	Applications	Loans	Amount of Loans
2013	116	60	\$ 452,511

### COMMENTS RECEIVED FROM CUSTOMERS

KATLC continued using Staying in Touch, LLC to conduct six month surveys of applicants to determine their satisfaction with the program. Here are a few of the comments received in the customer's own words.

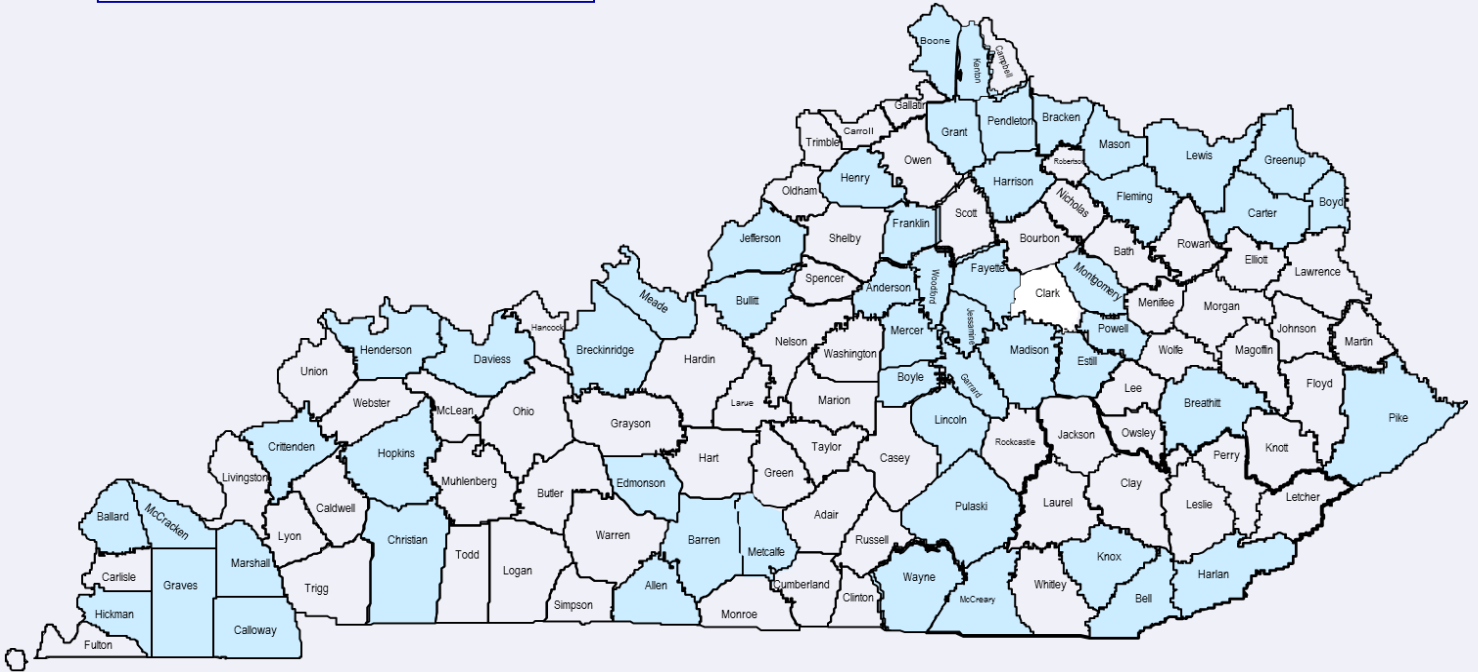

**Tell us about how you are using the assistive technology and its impact on you and your life.**

- My husband uses a electronic wheelchair and it is easier to get in the van than the Element. As we are both 79 it is much better for me.
- My hearing is very bad. I can now hear on the phone and best of all children and great grandson enjoy being with me more now that I can hear a lot better. (very important to me!).
- This loan paid the 20% that Medicare does not cover on wheelchairs. Had I not received this loan I would not have a functioning wheelchair. It impacts everything that I do.
- Name of vendor helped the family decide which type of hearing aids to purchase and their daughter is pleased - she heard background noises (raindrops hitting a car) for the first time.

**Would you recommend KATLC to other individuals who need assistive technology financing?**

- Great service for people in need.
- This is a great program and if you can get assistive technology it helps you live your life and be able to go place and it helps you to make your life a little easier.
- Good customer service
- Easy to work with
- Because KATLC is so much easier and dependable to work with.
- Reasonable interest rates, fast services, nice people
- \$6,900 a pair (hearing aids) and I'm retired and on a fixed income - I wouldn't have been able to buy them without this loan.
